## Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2012 - December 31, 2012

Filing Confirmation Number: 0005604813

Filing Deadline: January 15, 2013

FRN: 0016232142

Filing Date: 01/15/2013 02:29 PM

### General Report Information

#### Type of Company

Service Provider

#### De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

#### Company Information

Company Name: CLTel Wireless, Inc.

Brand Names: iWireless

PO Box: 66

Street Address: 107 N 4th St

City: Clear Lake

State: IA

Zip Code: 50428

Contact Name: Hillary Bartell

Contact Phone: (641) 357-2111

Contact Fax: (641) 357-8800

Contact Email: cltel@cltel.com

#### Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

#### Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency

band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?  
Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

### Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? No

Website address:

Explain: CLTel Wireless, Inc. is a small rural service provider that provides service in conjunction with the iWireless network. The company does not maintain its own website, but the basic information about its parent company, Clear Lake Telephone Company (CLTel), and links to the iWireless site are available at [www.cltel.com](http://www.cltel.com). Because the Company lacks the personnel and resources necessary to maintain an extensive site (and because such resources are better used for extending service to rural and underserved areas), information about the company's iWireless service and a complete list of handset offerings (including a click-box feature that allows customers to easily sort and identify hearing aid compatible devices) is provided at <http://www.iwireless.com/phonesview.asp>. An explanation of the HAC rating system, along with links to industry resources, a list of compliant devices and their compatibility ratings, a description of the company's methodology for determining handset functionality and information on other wireless accessibility options for the deaf and hard of hearing are readily available to the public at [http://www.iwireless.com/customer\\_support-hearing\\_aid.asp](http://www.iwireless.com/customer_support-hearing_aid.asp).

### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Describe consumer outreach efforts in the past 12 months: CLTel Wireless, Inc. provides in its retail outlets signs and brochures regarding the availability of hearing aid compatible handsets. In addition, the company has instructed its sales staff about the availability of hearing-aid compatible phone models.

### Methodology for Functionality Levels

Basic phones (entry-level phones that are offered for low cost or free); Feature phones (devices with more advanced capabilities); Smartphones/PDAs (devices that run complete operating system software as a platform for application developers).

### Report Remarks

Carrier may offer certain handsets that are capable of operating on more than one air interface. Carrier currently

operates only on the GSM and WCDMA air interfaces. The Commission has made it clear that the HAC handset phase-in requirements specified in Section 20.19(c)(3) apply only "for each air interface it offers." Report and Order, 18 FCC Rcd 16753 (2003) at Para. 53. Moreover, these handset phase-in requirements are triggered only after a service provider has begun offering service using a particular air interface. Memorandum Opinion and Order, 22 FCC Rcd 7171 (2007) at Para. 60.

You have reported the following handset model summary information.

Total number of handsets offered: 67

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
GSM	31	46%	13	19%	23	34%		67
WCDMA	17	53%	8	25%	7	22%		32

## Handset 1: LG dLite

### Handset Maker

LG

### Handset Model Name

dLite

### FCC ID

BEJGD570

### Air Interfaces/Frequency Bands

850 MHz GSM

1700 MHz WCDMA

1900 MHz GSM

### Dates

This handset model was offered from: 01/11 to 12/12

### Ratings

M-Rating: M3

T-Rating: T4

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911? N
